EQLEED MINING COMPANY

WE BRING YOUR VISION ALIVE

About us

Egaleed Mining Company is dedicated to unlocking the vast mineral potential of the Kingdom of Saudi Arabia. Established with a vision to become a leading player in the global mining industry.

Egaleed Mining and its partners combines expertise, innovation, and a deep commitment to sustainability to drive responsible mineral exploration and extraction activities. With a strategic focus on the rich mineral reserves of Saudi Arabia, including gold, copper, phosphate, and more. Egaleed Mining is poised to contribute significantly to the Kingdom's economic diversification objectives.

About us

OUR MISSION:

To responsibly unlock the mineral potential of Saudi Arabia, contributing to the nation's economic growth while prioritizing environmental preservation and social responsibility

OUR VALUES:

- Integrity: Conducting business with honesty, transparency, and ethical integrity.
- Innovation: Embracing technological advancements and creative solutions to enhance efficiency and sustainability.
- Sustainability: Prioritizing environmental preservation and community well-being in all decision-making processes.
- Collaboration: Working closely with stakeholders to build lasting relationships and mutual success.
- Excellence: Striving for excellence in all aspects of our operations, from exploration to production and beyond.

OUR OBJECTIVE:

- Identify and develop strategic mining projects that align with Saudi Arabia's economic diversification goals.
- Implement cutting-edge technologies and best practices to ensure efficient and environmentally conscious extraction processes.
- Foster strong partnerships with local communities, government entities, and industry stakeholders to promote transparency and mutual benefit.
- Maintain the highest standards of safety, ethics, and corporate governance in all operations.

Corporate Social Responsibility (CSR):

Egileed Mining Company is committed to making a positive impact on the communities where we operate. Our CSR initiatives focus on education, healthcare, infrastructure development, and environmental conservation. By investing in community empowerment, we aim to create a legacy of sustainable prosperity for generations to come.

The background of the entire page is an abstract composition of numerous thin, curved, light-colored lines that flow from the bottom left towards the top right, creating a sense of movement and depth. These lines are set against a gradient background that transitions from a light, almost white color on the left to a darker, muted brownish-grey on the right.

OUR SERVICES

“To give real service you must add something which cannot be bought or measured with money, and that is sincerity and integrity.”

• Mineral Exploration:

Eqleed Mining Company and its partners specializes in the systematic exploration and evaluation of mineral resources across the Kingdom of Saudi Arabia. Our team of geologists, geophysicists, and exploration experts employ advanced geological modeling, remote sensing technologies, and geospatial analysis to identify prospective areas for mineral exploration. Through comprehensive surveys and drilling programs, we aim to discover and delineate new mineral deposits, laying the foundation for future mining operations.

- **Mining Development:**

Once mineral deposits are identified and assessed, Eqleed Mining Company initiates comprehensive development plans to extract these resources in a responsible and sustainable manner. Our mining development services encompass mine planning, engineering design, environmental impact assessments, and regulatory compliance to ensure that operations meet the highest standards of safety, efficiency, and environmental stewardship.

• Mineral Extraction:

Eqleed Mining employs state-of-the-art mining techniques and equipment to extract valuable minerals from the earth efficiently and economically. Our expertise spans various mining methods, including open-pit mining, underground mining, and in-situ recovery, tailored to the specific characteristics of each deposit. By prioritizing operational excellence and resource optimization, we maximize the recovery of valuable minerals while minimizing environmental impact.

• Environmental Management:

Environmental preservation is at the core of Egleed Mining Company's operations. We are committed to minimizing our ecological footprint through proactive environmental management practices, including land reclamation, water conservation, waste management, and biodiversity conservation. By implementing industry-leading technologies and adhering to stringent environmental standards, we strive to mitigate the environmental impacts of mining activities and preserve the natural heritage of Saudi Arabia for future generations.

- **Community Engagement and Social Responsibility:**

Eqleed Mining Company places a strong emphasis on building positive relationships with local communities and stakeholders. Our community engagement initiatives focus on fostering dialogue, promoting economic development, and supporting social programs that enhance the well-being of nearby residents. Through transparent communication, partnership building, and sustainable development projects, we aim to create lasting positive impacts and leave a legacy of prosperity in the regions where we operate.

OUR PARTNER

"Coming together is a beginning, staying together is progress, and working together is **success.**"

INDOTAN GROUP

INDOTAN GROUP

Indotan group is a corporation of a variety lines of business across Indonesia. Through its subsidiary PT Indotan Halmahera Bangkit, Indotan acquired the majority ownership of PT Nusa Halmahera Minerals (NHM) which operates the Gosowong Gold Mine from its previous shareholder, Newcrest Mining Ltd. in early 2020.

INDOTAN are dedicated to unlocking the inherent value of minerals while safeguarding the delicate balance of our planet. With a rich identity of production and exploration, by use a forward-looking approach, to leverage state-of-the-art technologies to extract commodities efficiently and responsibly in Indonesia.

Puncakbaru
Jayatama

www.ptpj.co.id

PTPJ

Puncakbaru Jayatama (PJ) is a highly accredited exploration service based in Indonesia. With over 3 decades of experience in one of the world's most mineral-rich countries, our discoveries have amounted to nearly 9 million ounces of gold to date.

The geoscientist team has expert knowledge of various orebody formations, notably in gold-silver-copper deposits in the southwest Pacific.

Services:

01. EXPLORATION MANAGEMENT.
02. GEOLOGICAL AND RESOURCES SERVICES.
03. GEOPHYSICAL SERVICES.
04. DRILLING SERVICES.
05. MINING EVALUATION SERVICES.
06. MINING OPERATIONS.

ARDONA

Ardona office provides professional geological, geophysical, geotechnical and environmental advisory services as well as modeling, simulation and solutions to geological problems. Ardona office has specialized research techniques and developed computer software to process and interpret complex geological and geophysical data. Ardona office is proud of its distinguished scientific team of highly experienced Ph.D holders in Geology & Geophysics who have supervised and achieved several research projects during the past forty years.

SERVICES:

- Locating subsurface cavities.
- Analysis of seismological & earthquake data.
- Solving soil geotechnical problems.
- Solving environmental hazards
- Supervising drilling of surface and deep wells, setting their specifications and developing
- Surveying and Detection of mineral and mining ores
- Investigation of seismicity and tectonic activities
- Monitoring of radiation and nuclear activities
